Professional Summary

Full Stack Web Developer with 4 years of experience building performant and scalable web applications. Proficient in JavaScript, TypeScript, React.js, Node.js, GraphQL, and Microfrontend architecture. Strong understanding of frontend performance optimization, distributed systems, and scalable architecture.

Professional Experience

Full Stack Developer | Space-O Infoweb Pvt. Ltd. | Ahmedabad   **Dec 2024 – Jul 2025**

- Built a scalable product recommendation system using React.js, Nest.js, and pgvector, improving recommendation accuracy by 25%.
- Developed an internationalized (i18n) admin dashboard for a global food ordering platform with multi-tenant architecture.
- Used Orval to automate API client generation, reducing frontend boilerplate code by 30%.
- Applied performance optimizations like code-splitting and tree shaking for better Core Web Vitals.

Full Stack Developer | SyncSignature | Surat   **Feb 2024 – Nov 2024**

- Led full-stack development with React.js, ShadCN UI, Tailwind CSS, Node.js, and GraphQL.
- Deployed backend and frontend on AWS EC2 and Firebase respectively.
- Implemented AI-based headshot generator and managed email signature deployment via Google APIs.
- Converted platform to a Progressive Web App (PWA), reducing load time by 30%.
- Mentored 3 junior developers on React best practices.

Web Developer | Ciphernutz IT Services | Surat   **Oct 2021 – Jan 2024**

- Improved app performance by 25% by caching API responses with Axios Cache Adapter.
- Built a tax document management app using React.js, SCSS, and WebSocket for real-time updates.
- Enabled job search and resource sharing with Next.js, integrating Sanity and Strapi CMS.

Personal Projects

- **Wordle Game** – React.js-based word game. Live
- **Text-to-Speech Web App** – Next.js + Web Speech API. Live
- **WebRTC File Transfer** – P2P file sharing tool. Live
- **Habit Tracker App** – Daily/Weekly/Monthly habit views. Live
- **Invoice Generator** – Modern invoice app with PDF export. Live
